## **Outstanding Computer Programmer Award**

We love to have students who are ambitious and who work hard to be the best they can be. They don't settle for mediocrity. Today, we recognize a student who has diligently worked to become one of the very best. He thinks like a programmer and isn't afraid to tackle hard problems. He has exceeded my expectations on everything he has done and is well deserving of this award. If his successes here foreshadow what is to come, he has a lot to look forwards to. From his personal programming projects, I am excited to see what happens in the years to come.

The 2012-2013 Most Outstanding Computer Programmer Award goes to: **Braeden Diaz**
